

Year 5 - Week Beginning Monday June 22nd

We'd love to see your work posted on Twitter using #BGP5. Don't forget you can save work to your Hwb account or keep the paperwork safe! We are very proud to hear that you are still keeping up your learning.

* Try to read a little everyday - books, online reading, magazines, website. 15 MINUTES a day please - but of course I don't mind you reading more!

* Keep up your work on TT Rockstars - about 15 minutes every day but more isn't a problem at all!
* Try to keep your mind and your body active.

Monday

- Start the week with a workout - you choose the activity. It could be a physical workout or a mental workout - just sitting quietly and listening to the sounds around you. Use your senses. Think what you can see, hear, smell, touch and maybe even taste, although that is a little harder.
- Log on to the website and complete the Key Stage Two 'Daily Lessons'. You can scroll back and try one from last few weeks instead - find one you will enjoy. <https://swanseavirtualschool.org/daily-lessons/>

Tuesday

- Use today to catch up on some reading. Use ANY reading resource you have. Any books you have at home, any online reading (maybe <http://myths.e2bn.org/> or <https://www.funbrain.com/books> . You may like <https://magicblox.com/> (You will need an adult to register you for this site.)
- From the book / extract / story you read, you be the publisher. When we tell you about books we would like you to read, we tell you the good bits. We wouldn't tell you the boring bits or the bad bits. Your job is to write the blurb to encourage me to buy it but it HAS to be between 40 and 50 words long and you aren't allowed to use digits - you have to use the written version of the word.

Wednesday

- TT Rockstars please. Don't let your times tables slip. You could also try the J2Blast on your Hwb account or <https://www.themathsfactor.com/times-tables-check/#/>
- We're going to look back at co-ordinates. Log on to this website and click on the grid to open the game. On the next page, choose what type of grid you want to use. L uses all positive numbers so is a good way in to practise first but don't forget to challenge yourself.
- Log on to the daily questions on The Wave. Some are REALLY quick and easy to answer, some will take a lot longer. There are new ones added all the time. <https://www.thewave.co.uk/on-air/leigh-and-claire/leigh-and-claires-homeschool/>

Thursday

- Now that you have practised using co-ordinates, this game is a little harder. <https://mathsframe.co.uk/en/resources/resource/469/Coordinates-Alien-Attack>
- I've never been to Giraffe Manor - and I don't think any of the teachers in the school have either. If you search for 'Giraffe Manor', you will find LOTS of websites that give you information and even offer you to book a stay. There are films on You Tube of people staying there. I want you to encourage me to go there. Are you going to write a diary entry as though you have been? Are you going to tell me what the rooms are like or what breakfast was like? Maybe you'll draw me a picture from your bedroom window. I'll leave HOW you put together your write up of the visit to you. All I'm going to say is, make me want to go!

Friday

- Try this on-line game to check your knowledge of words and their meaning. You will need to scroll down the screen a little to see the whole game. <https://funenglishgames.com/readinggames/dictionary.html>
- You may have seen that there is going to be a new Disney Film being released on Disney plus - Artemis Fowl. (I watched three different trailers and what they cast had to say about the film.) In the film, he is trying to find his missing father who has been protecting powerful secrets. If you were Artemis Fowl, what secrets would you be protecting? Give me enough of a plot to make me want to make that idea into a film. Maybe you could story board it, tell me, or draw, what the characters look like or wear, or even what hidden skills they have.
